Opti-Height

Optical Stadiometer System

Height Measurement at the Speed of Light

Befour, Inc. Introduces the Opti-Height Digital Stadiometer Scale Line

We've taken our most popular measurement stations and enhanced the way a patient's height measurement is taken, creating the: **MX910 — MX905 — MX908 — MX977 scales**

The exclusive Opti-Height technology enables fast and accurate height measurements through state-of-the-art design and expert engineering. The 360° ergonomic hand grip and robust headpiece ensures the smoothest, simplest and safest height measurement process available in healthcare. The measurement slide encompasses *Smart Position Technology* meaning it 'stays put' where last left so height rod is always in the 'ready' position for the next patient.

Completely versatile offering the longest measurement span of any height rod on the market!

Capture height measurements faster, safer & with more accurate results

Becomes the

- The MX810 → **MX910**
- The MX805 → **MX905**
- The MX808 → **MX908**
- The MX877 → **MX977**

Stadiometer Features:

- Simple, 3-step height measurement sequence
  Step on scale (weight appears), lower headpiece & press HEIGHT
- Ergonomic hand grip (see left)
- Smooth glide rail with 'One Finger' slide action
- Smart Position Technology - handgrip/headpiece stays where last left
- 360° rotation - safely rotate away from patient's face
- Robust & sturdy headpiece
